HDPE HORIZONTAL WATER TANK

250 USG

3LAYERS
WHITE / ARMY

STRONG. SAFE. BUILT TO STORE.

The Oman Polycon HDPE Horizontal Water Tank is designed for the safe storage of potable water, combines durable construction, UV-stabilized virgin polyethylene and reliable watertight performance.

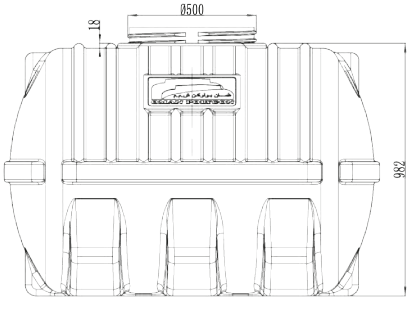

%100 Leak proof | UV Stabilized | Food Grade Material | Strong & Durable

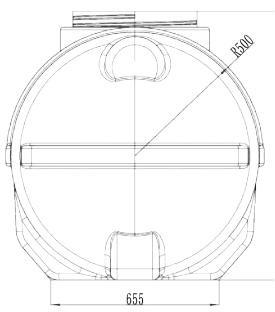

PRODUCT FEATURES

Product Name	High-Density Polyethylene (HDPE) Horizontal Water Tank 250 USG
Carrier Resin	WRAS Approved Raw Material-HDPE
Application	Storage of portable water
Capacity	250 USG
Size	Ø - 1006 mm, Length- 1462 mm, Height- 1045 mm
Product Compliance	GSO 2007-1831
Gross Weight	30 Kg
Foundation Type Required	Firm flat and horizontal surface

TECHNICAL DATA

Tensile	23 N/mm2
Tensile Modulus	63 N/mm2
Stress at Yield	21 N/mm2
Flexural Strength	42 N/mm2
Impact Resistance	IK10
Heat fastness	Max upto 300 °C
Moisture Content	<0.14 %
